Our mission and jobs

Our mission is to train as good as we can so we will become the best international police forces ever made. We have the courage and we are not scared to work. We are organized and we developed many qualities useful for different jobs:

- The captain
- The forensics
- The inspector
- The counstable

As the name says it, the captain is like the leader of his/her team. Gotta help everyone!

The forensics is the scientist of the team. For instance: he/she tests fake blood, look who's fingerprints are, etc..

Who are we?

The inspector! Do I really have to explain it?

The counstable is the one organizing everything which's about the customer's complaints and take the call. Buuuut, it's not really like a secretary.

Our colleagues

Trusting each others is our #1 rule. And making people trust us is important aswell. We collaborate with the best other schools that are training like us. They trust in us like we trust in them. They are from:

- Grece
- Italy
- Serbia

Grece

Italy

Serbia

France

The apps used for our work

- **Twinspace**
- **Google Hangout**
- **Canva**
- **PowerPoint**
- **iMovie**

It tests us by making exams about what we learned and we can see the work of our colleagues.

This app is helpful to talk between us and share anything about crimes and it's not an app which need to be use by a specific age. How great!

Perfect app for our presentations or trailers. Loved by all!

Making our slide show on PowerPoint is helpful. We need to do perfect work or else the boss won't be happy!

Easy to use and amazing for any photo Editing.
